### CNG is cost-efficient

up to 50% fuel  
cost savings compared  
to traditional fuels

### CNG is environmentally friendly

When compared to petrol,  
CNG has 30% lower CO<sub>2</sub> emissions,  
up to 90% lower CO emissions and  
zero dust particles

### CNG is safe

CNG-powered vehicles  
are engineered with maximum  
attention to safety. The fuel  
is stored safely  
and securely.

## CNG

Compressed natural gas  
is a cleaner alternative  
to standard fuels  
as well as LPG.

## CNG filling unit

- ▷ suitable for commercial and personal use
- ▷ easy installation and operation
- ▷ independent on public filling stations
- ▷ capacity can be increased to accommodate fleet growth
- ▷ low operating and service costs
- ▷ return on investment within 2 to 3 years

## Comparison of vehicle range with 10 € worth of fuel

	<b>CNG</b> 310 km
	<b>LPG</b> 196 km
	<b>Diesel</b> 161 km
	<b>Petrol</b> 116 km

## ▷ Typical applications of the CNG MJ05 filling station

- passenger cars, commercial vehicles, vans, fork-lift trucks etc.
- 1 to 6 vehicles per filling station
- a single filling station can serve vehicles with a total annual driven distance of 140 thousand kilometres
- taxi drivers, post offices, messenger services, tradesmen (plumbers, bakers), driving schools, municipal services as well as private vehicles
- private company filling stations
